PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mrs. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15th Floor, Nashville, Tennessee 37243 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Any individuals with disabilities who wish to participate in these proceedings or to review these filings should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be in person, by writing, telephone, or other means, and should be made no less than ten (10) days prior to the hearing, or the date such party intends to review such filings, to allow time to provide such aid or service. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 2nd Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (866) 253-5827 (toll free) or (615) 532-0200. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

The applicant is Cardin Forest Products, LLC with a mailing address of P.O. Box 356, South Pittsburg, TN 37380. The facility seeks to obtain operational flexibility by using dry wood (currently uses wet wood) as fuel in its existing 17.5 MMBtu/hr boiler (58-0134-01/969031F) located at 2534 Battle Creek Road, South Pittsburg, TN 37380. With this revision, the boiler will operate under permit number 971799. A wet venturi scrubber is being used as pollution control equipment. A multiclone has been added upstream of the scrubber to reduce the particulate load. There will not be any physical construction. Regulated air contaminants are being emitted by the source. NOx emissions will increase with the use of dry wood as fuel. Tawanna F. Reid is the assigned Division person.

For the Marion County "Jasper Journal"-- publish once on Tuesday, November 8, 2016.

The applicant is Interlink Communications Partners, LLC dba Charter Communications with a mailing address of 6399 South Fiddler's Green Circle, Suite 600, Greenwood Village, CO 80111. They seek to obtain an air contaminant permit (Division identification number: 78-0217-02/72177) for the construction of an Emergency Generator located at the 126 Walker Street, Sevierville, TN 37876. This proposed operation would consist of one (1) generator with a diesel-fired engine (108 kW) and associated equipment used to produce power. Due to the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Horton is the assigned Division person.
